

I've started using infloso app for a while now and I found it to be really interesting and a fun app to have a social media impact and gives a lot of opportunities for one to connect with brands and improve their social media presence. Worst application. It doesn't let me connect my Instagram neither my YouTube. Nothing works. I have an Instagram family of close to 70K followers still you can't find me there? How do I connect my Instagram? Bahut hi vdiya app hai chote mote creator ko bi collaborate krne ka moka deta hai aur earn krne ka jisse jo new creator influencer hai mere jaise unko moka milta hai aur ummed jagti hai but followers target thoda kam hota to aur jada better hota aur jo male creator hai usko female creator wale bi collars show hote hai bi nhi hone chahye jab gender dal hi rhe hai to jo bo apply kar skta hai whi show kre usko sort krke YouTube username. hey I'm unable to add my YouTube username when ever i add it's telling wrong.plz tell me how to add YouTube username and where I can find. I have been applying for so many Collabs And not even a single reply Neither the app is that gud to use like it's very basic.. no help centre.. no way to get info on the applications.. no progress shown.. just a big waste app I feel 😞 In playstore the app says no minimum followers needed for collab but when I download and open in search of collaboration it says I need atleast 5k followers for collaborations this is ridiculous I am brand owner but showing this app is for influencer only what should I do Mu YouTube channel is not connecting. I tried so many times, but it said this username couldn't found. please help me. Very good experience from infloso app Vary bad apps I have applied for collab so many campaign, but didn't get a single collab from it. It's been 5 months, none of them accept me Facing a 109error I am trying to login but I am not able to login even though the password and email are all correct. but still I am not able to login. this app have so much glitches. please fix the bugs of this app. At first my instagram was not connecting...so I deleted that account...and now I can't even creat an account I'm not even able to connect my account to Instagram this application is showing error.not a good app Not able to connect my instagram account. I saw this add and thought to download this app but wait a minute what I found, all the positive reviews are fake lol . How can you just buy reviews? Oh gosh. What a nonsense way to fool people. It's definitely a scam . I would post on my social media to aware people about this app. Hahha scammers . Unable to create an account After so many attempts Unable to login, don't know how it's working Infloso is a mind blowing app I have used this app for few months and I am very satisfied with it . This app shows only for influencer, so can a brand find influencer according to there business 🧑 I registered through this app, but it is not what I was expecting. My requests for collaboration are left pending for more than a few months!!! This app is such an amazing one! I think every influencer should have this app! 10/10 ❤️💕 Best app I ever seen in my life, and they provide best campaigns to influencer, as I'm influencer I like there service and customer support you guys must try this app. As a creator, I'm sharing my personal experience working with Infloso. You can apply for campaigns directly from the app, and payment is made on time. I'm very happy to work with Infloso. Not good enough... Best app I love this app 🌹🌹🌹 It does not include south Africans. This app is very nice and useful I first installed this app and made an account then I have linked my ig account to this app and start earning by approving in lot of branded contents Firstly the user interface is easy to use. It's been a months I've using app and I can't express how much it has inanced my productivity. Veryyyy bad app ever seen I can't even login with brand account when it's influence app then why u have brand options and later is says that only for influencer totally nonsense u should close the app!!!!!!! Very disappointment Un able to connect the YouTube account Poor user experience. I'm a software developer and being professional this app has the worst UX I've ever experienced. In profile section when i try to connect instagram, it get connected. But my username is same in all my social accounts and when i try to add another account (twitter,linkedin,youtube,etc..) with the same username then its reflecting back my previously added Instagram account showing its already connected. Seriously, this is the production level release you guys made for public? Good My journey starts with infloso in first campaign...when I finish this campaign then I put my video about this app. abhi tak koi campaign nahi kiya hai..only 1 campaign apply Kiya hai...but abhi tak under process chal raha hai.. Bakwas!! Koi deal done

In date of birth year drop-down coming country list I've been using Infloso for a while now, and I can't express how much it has transformed my productivity. This app is a game-changer! Firstly, the user interface is clean and intuitive. Navigating through tasks, projects, and calendars is a breeze. The app's design encourages focus and efficiency. Very simple , easy to use, I love it It's been months that I've this app on my phone but till now I've not received a single collaboration from this app inspite of fulfilling the eligibility criteria and having a good number of audience on my Instagram. I've been applying for almost all the campaigns from past few months but still no luck. Worst app ever, total waste of time!!!! Infloso is a very good and helpful app for new influencers . It's helps us with new brands for collaboration. A perfect platform for all the micro influencers& its so helpfull. Although its a good experience with infloso💕 and I am so satisfied with this app. thanks infloso ☺ Its awesome app I've applied to all campaigns, wherever the eligibility criteria was fulfilled, but not one campaign reverted back, moreover the support system is the worst,i can contact no person through any means, will definitely not recommend anyone about this app Wasted my time and finally They ask you to write a good review everywhere and then they pay you after months and when finally you get paid 80 rupees you are not able to transfer it to your account. Worst app ever doesn't deserve a single star 👎 To everyone out there thinking about installing this app. There is a fake statement about this app, it says even profiles with zero followers can apply for the campaign but after downloading the app and wasting my data over it. I found they require 5000 followers to apply for any of the campaign. Beware everyone Infloso is an exceptional paid barter collaboration app that has revolutionized my content creation journey.
